BIMReview Pre Requisites – System Requirements

Date - 5th August 2015

BIMReview is AceCad's BIM solutions for managing supply content from design to the construction site. It enables import of BIM models and associated data from multiple CAD/BIM authoring tools to consolidate effective BIM project collaboration; including review and visual communication, clash verification, mark-up, sequencing and planning.

Hardware (these are the minimum requirements):

- Windows version XP SP3 to 10
- Intel®/AMD™ 3.0GHz or equivalent processor.
- 2 GB RAM
- Graphics card supporting OpenGL 3.3 or Direct3D 10
- 300 MB free disk space for installation
- Internet access for product activation
- Monitor with display resolution supporting a minimum of 1280 x 800 VGA
- Recommended Graphics Cards
    - Nvidia
    - Quadro
    - GeForce
    - AMD/ATI
    - FireGL
    - FirePro
    - Raedon

Software (apart from Windows itself the others are provided as part of the installer):

- Microsoft ® Windows XP/Vista/7, 32 and 64 bit editions
- Microsoft ® .Net Framework 3.5 SP1
- Microsoft ® Visual C++ 2008 Redistributable (32 and 64 bit version, dependent on OS)
- Microsoft® Windows® Installer 4.5
